| | |
|--------------------------------------|--------|
| Generation capacity in megawatts | 10,379 |
| Power delivered (in millions of kWh) | 43,137 |

Southern California Edison

SCE is one of the nation's largest investor-owned electric utilities, serving nearly 14 million people in a 50,000 square-mile area of Central,

Coastal and Southern California. Based in Rosemead, Calif., the utility has been providing electric service in the region for 125 years.

SCE is regulated by the California Public Utilities Commission and the Federal Energy Regulatory Commission. SCE has an extensive transmission and

distribution system that includes more than 59,000 circuit miles of overhead lines, approximately 44,000 circuit miles of underground lines, and more than 700 distribution substations, as of Dec. 31, 2011. SCE's utility generation portfolio has a capacity of approximately 5,574 megawatts, as of Dec. 31, 2011.

Edison Mission Group

EMG manages the competitive power generation business and other unregulated subsidiaries of Edison International. EMG is headquartered in Santa Ana, Calif., with operations across the country. EMG's power generation assets include fossil-fuel power plants, a biomass facility and one of the largest portfolios of wind energy projects in the United States. EMG's continuing operations consist of owned or leased interests in 43 power generation facilities, with an aggregate capacity of 11,504 megawatts, of which EMG's ownership share is 10,379 megawatts, as of Dec. 31, 2011.

Edison Mission Energy, a subsidiary of EMG which is also based in Santa Ana, Calif., is an independent power producer engaged in the business of owning, leasing, operating and selling energy and capacity from electric power generation facilities. EME conducts price risk management and energy trading activities through Edison Mission Marketing and Trading (EMMT), which is based in Boston.

Edison Capital, a subsidiary of EMG also based in Santa Ana, Calif., is the capital and financial services business of EMG. Edison Capital has investments worldwide in energy and infrastructure projects, including power generation, electric transmission and distribution, transportation, and telecommunications. Edison Capital

also has investments in affordable housing projects located throughout the United States.
