

# COLLEGE RELATIONS

## Program Information

Edison. It's a name that has been associated with invention and innovation, the kind that has made us a national leader in renewable energy, energy efficiency, smart grid technology and electric transportation.

We are a company that employs over 17,000 people in areas from engineering to marketing, information technology to finance, customer service to architecture and beyond. It's a place where recruits want to join and employees want to stay.

Through Southern California Edison's College Relations programs, students can further their leadership skills and experience meaningful work and contributions that will apply to their career goals. This can be done in a culture that embraces teamwork, respect and diversity. Students from many different universities and backgrounds have participated and continue to offer their talent and ideas to help the company carry on its vision: *Leading the Way in Electricity*.<sup>SM</sup>
